## SUGGESTS FEDERAL RESERVE BANK FOR EUROPE

### Government to Start Work At Once on Colorado Project

#### SENATOR SAYS PLAN WOULD AID PAYMENT OF WORLD WAR DEBT

(By Associated Press)  
WASHINGTON, D. C., Jan. 4.—Establishment of a European federal reserve bank, providing gold-secured currency and linked inseparably with the American reserve system, from which it would draw its resources and reserves, was advocated by Senator Owen as a basic move toward restoration of stable economic conditions throughout the world.

In an extensive speech in the senate, Owen suggested in connection with the proposed reserve bank the following proposals for American aid in world rehabilitation:

1. That we should postpone final payment of the world war debt in the United States by extending payment over 50 years; that we should not for 10 years collect any amount under the sinking fund.
2. That in arranging payment of Europe's debt to the United States we should extend the time to Europe necessary to enable them to readjust their affairs and regain their protective power; that we should not for 10 years demand of them payment of interest due, but allow it to merge with the principal.
3. That we should put an interest rate of 3 per cent on Europe's debt to the United States.

#### NEW SCHEME IS SUGGESTED BY DE VALERA

(By Associated Press)  
DUBLIN, Jan. 4.—On the resumption of the Dail Eireann today a new version of De Valera's amendment was distributed to the members. It proposes a treaty of amity and association between Ireland and the governments of Great Britain and other states of the British commonwealth.

The first speaker today was Donald Buckley, of Kildare, who opposed the treaty. "The people of this country have been stampeded into acceptance of the treaty by the rotten press of Ireland. I shall vote against it," he said. Alexander MacCabe, of Sligo, followed with a plea for acceptance. While he was describing the disappointment he said the millions of Irish women and children would feel if the treaty is rejected, Miss Mary MacSwiney interrupted, saying the women were not in favor of the treaty. MacCabe retorted: "I know what the women of Ireland want as well as you."

Announcement was made during the afternoon session of Dail Eireann that De Valera would make public his alternative proposals as a substitute for the Anglo-Irish treaty, which is under consideration, at the close of the afternoon's session.

GEORGE B. THATCHER, the Reno attorney, who spent yesterday in Tonopah, left on this morning's train for his home.

#### DRY RAID IN WYOMING NETS MANY ARRESTS

(By Associated Press)  
WASHINGTON, D. C., Jan. 4.—Prohibition agents and United States deputy marshals, traveling by train under sealed orders, today conducted a raid in Sweetwater county, Wyoming, with 66 arrests for violation of the prohibition law, Prohibition Commissioner Haynes was advised.

#### DEATH LIST FOR BELFAST REACHES SIX

(By Associated Press)  
BELFAST, Ireland, Jan. 4.—Six deaths have resulted from the present series of disorders in Belfast, one of the fatalities being a child who was shot in its mother's arms. Firing was continued last night, the heavy snow and frost not deterring the rioters. In the Sinn Fein Carrick Hill district late yesterday the police arrested two men who had fired on them. One had a rifle and the other a number of bombs.

#### JILTED WOMAN GIVES LAWYER ROBBERY CLEW

(By Associated Press)  
HILLSBORO, Ill., Jan. 4.—The arrest of Sheriff John Wilson and six other men in connection with the \$31,000 robbery of the Panama State bank here, has resulted from disclosures of a woman who implicated her own husband. It was announced by State's Attorney Raimy. Mrs. Jerry Brown, the state's attorney said, has made a detailed statement that her home was the rendezvous of the alleged robbers. She implicated her own husband, Raimy announced, and declared she was determined to tell what she knew after Brown used the money the robbers had given him to buy a new automobile and skip out.

#### ELECTION BY POPULAR VOTE IS RESOLUTION

(By Associated Press)  
WASHINGTON, D. C., Jan. 4.—An amendment to the federal constitution to abolish the electoral college and providing for the election of president and vice-president by a direct vote of the people, was proposed in a joint resolution introduced in the senate by Norris, of Nebraska.

#### HELP ASKED BY CHINESE ON PROBLEM

WASHINGTON, D. C., Jan. 4.—Arthur J. Balfour and Secretary of State Hughes have been approached by the Chinese arms delegation regarding the existing deadlock with Japan on Shantung, and asked them to mediate. It is learned on high authority.

#### SHIPMENT BY BETTS SHOULD MAKE \$30,000

A shipment of 80 tons of high-grade ore that is expected to bring a settlement of \$30,000 will be made some time the latter part of this week from the Betts lease on the Golden Eagle claim of the Hudson Mining company at Royston.

This shipment will be the largest ever made from the new boom camp of Nye county, and will have a material effect upon the future of the district as a whole. The ore will be consigned to either the smelter at Salt Lake or to the smelter at Selby, that question to be fully determined within the next couple of days.

Benjamin Franklin Betts, the moving spirit in the lease on the Golden Eagle claim, and who is associated with George Box, Charles V. Poy and Harry Cunningham, stated this morning that he was in Tonopah for the purpose of entering into a contract for the trucking of the ore from the new camp of Royston to the railroad station at either Millers or Tonopah. He expects to have this contract consummated by tomorrow at the latest, and the truckers can then start ore delivery just as soon as they find the road in passable condition.

Mr. Betts stated that the 80 tons of ore which is expected to return better than \$500 net a ton is now on the dump. It will not be sacked, but a sealed car will be used in transporting the product to the smelter. "I will follow this shipment out within a short time," remarked Mr. Betts, "with a \$7,000 shipment. We have the ore blocked out and ready for extraction and will be in a position to market the product within a comparatively short time."

Mr. Betts is well pleased with conditions at the Golden Eagle lease. Drifting is in progress from the 33-foot level of the shaft workings and ground is being explored north and south, with the orebody being exposed on the hanging-wall and varying in width from 6 to 8 feet. That the orebodies will be found extending in both directions for a considerable distance is no longer doubted, and it is estimated that "ore in sight" will now aggregate around \$150,000.

The announcement that a \$30,000 shipment will be made immediately will have a tendency to greatly stimulate matters at Royston. A full in operations naturally took place during the holiday season, but those interested in properties are again starting development with a determination to place Royston on the map as the home of some of the biggest producing mines in southern Nevada. The boom will again start shortly with renewed activity and by early spring the entire district should be a beehive of activity.

#### DELIVER CASING FOR FISH LAKE MERGER

It is probable that either tomorrow or Thursday a big truck will be engaged in hauling casing from Coaldale to the seat of operations of the Fish Lake Merger Oil company.

Two carloads of casing arrived some time ago, but owing to the bad condition of the road it has been impossible to move the pipe. Just as soon as the first truckload of casing has been delivered drilling operations will be resumed, and from that time forward there promises to be no cessation of activities until Fish Lake valley as an oil center has been proven, so far as it applies to the holdings of the Fish Lake Merger Oil company.

Charles W. Taylor, the bustling president of the company, was busy today in making arrangements for the delivery of the casing, and stands ready to proceed to Fish Lake valley to superintend personally future operations at the well.

#### MORE TROUBLE EXPECTED FOR WEST VIRGINIA

(By Associated Press)  
MORGANTOWN, W. Va., Jan. 4.—Sheriff Yost left today for the Scotts Run coal field where his office announced miners were congregating with the avowed intention of marching into the Gaston Run territory as a protest against the alleged agreement of miners of the Gilbert-Davis mine to work on a non-union basis.

#### DENY PACT IN SIBERIA WITH THE JAPANESE

(By Associated Press)  
PARIS, Jan. 4.—The French ministry of foreign affairs has issued a formal denial of any alleged Franco-Japanese understanding regarding the occupation of Siberia. Documents purporting to show that France and Japan had entered into such an agreement were made public in Washington Saturday by delegates from the far eastern republic.

#### MAKES DENIAL OF CHARGE BY LA FOLLETTE

(By Associated Press)  
WASHINGTON, D. C., Jan. 4.—Denial of the recent charges by Senator LaFollette that an agreement had been made to push legislation to repeal the so-called guaranty section of the transportation act and to restore state control of interstate rates was obtained from farm organization leaders at a conference here with representatives of the railroads, coal, steel and lumber interests. It was made by W. L. Drummond, of Kansas City, chairman of the board of governors of the International Farm Congress.

#### NO AGREEMENT ON SHANTUNG SAYS DR. KOO

(By Associated Press)  
WASHINGTON, D. C., Jan. 4.—Wellington Koo, one of the Chinese delegates to the arms conference, characterized as untrue reports that the Peking government had accepted the Japanese terms for a settlement of the Shantung question through direct exchanges between Peking and Tokyo. The Chinese and Japanese delegations were requested by the state department to meet in joint session at 5 o'clock, presumably to consider further the Shantung question.

#### FORMER DRY CHIEF INDICTED IN N. Y.

(By Associated Press)  
NEW YORK, Jan. 4.—Harold L. Hart, former federal prohibition director for the state of New York, was among a score of defendants in a secret indictment recently returned by a federal grand jury investigating recent violations of the Volstead act here.

#### TWO NEVADA SITES SELECTED FOR THE PRELIMINARY WORK

(By Associated Press)  
LAS VEGAS, Nevada, Jan. 4.—The United States government will establish a camp at once at Black Canyon, 21 miles down the Colorado river from Boulder Canyon, for the purpose of testing the Black Canyon ground as a possible dam site. Camps will be maintained at Boulder Canyon and Black Canyon, and diamond drilling will be continued at the former and commenced at the latter. At Boulder Canyon Walter R. Young, government engineer, said drilling has shown that a proper footage can be reached at a depth of 140 feet. Black Canyon is 26 miles from Las Vegas.

#### HUDSON SHAFT SINKING WILL START SOON

Work is progressing favorably in the repair of the incline shaft on the Hudson property at Royston preparatory to sinking operations. The shaft is being widened out and straightened in place, while 20-pound steel is being installed to permit of heavier skips being used. Barber & Chalmers, the successful bidders for the contract, stand ready to start work the moment the repairs have been completed, and it is expected that within a few days work will be in full swing. The shaft has a present depth of 320 feet, and the contractors will proceed with sinking until the 600-foot level has been reached. It is anticipated that good headway will be made in dropping the shaft, and all interested in the Royston district will await developments with more than passing interest.

#### RATE AGREED UPON BETTER FOR CHINESE

(By Associated Press)  
WASHINGTON, D. C., Jan. 4.—Practical completion of a report to be submitted by the committee of naval experts to the naval committee of the arms conference, and the agreement of the subcommittee on a Chinese tariff on a 5 per cent effective basis were the two important developments in the conference situation today.

While the rate agreed upon by the subcommittee on Chinese tariff is the same as that provided for in existing treaties, the fixing of 5 per cent as the "effective" rate is expected to result in a clear increase of approximately 1 1/2 per cent to the Chinese government, adverse exchange having reduced the existing tariff to about 3 1/2 per cent.

#### TWO ARRESTS RESULT FROM DEATH INQUEST

The finding of the coroner's jury, which met yesterday afternoon to investigate the death of Eugenio Perez resulted in a verdict that the deceased came to his death as the result of a fractured skull, caused by a blow administered with an unknown object, supposed to be wielded by Trinidad Gutierrez. The alleged assailant and one of the witnesses, Jose Gonzales, who is thought to know more of the case than he has told as yet, were lodged in the county jail.
